

## Wetland, archery, game animals

Lag Karhuseutu is located in west coast of Finland.

[www.karhuseutu.fi](http://www.karhuseutu.fi)

### What we are planning?

There already exist a agriculture farm. Now they would like to have tourism involved it. They are planning:

- build the wetland with a pumps from the river.
- to grow game animals in huge fenced area.
- to build archery training center. The track would be moving faked animal.
- also there is training courses to archery, hunting, cooking gamefood etc.

### The objects would be

-tourists, huntingclubs, archery shooters, schools etc.

### We are looking for ?

may be the track we would build with transnational co-operation project. And for that we are interesting in partner, but mainly we are looking for only contact to a place little bit similar we are planning. So if you know in your LAG area there is moving archery track or build wetland or fenced gamefood area, please help us to contact them to find some ideas how they have done these things.

**We would like to come studytrip ☺**
