Notes:

- 1) Reimbursement of costs of expert and testing tasks performed for the Institute by foreign testing authorities based on a contract has to be paid in full extent and the sum must be clear in advance. Costs of expert and testing tasks performed by a foreign testing authority are to be reimbursed by the applicant to the foreign testing authority (Article 6 (5) and (8) of Act No 147/2002 Coll., on the Central Institute for Supervising and Testing in Agriculture and the amendment of some related Acts). Note 1) applies also for crops, for which the Institute does not have the technical capacities to perform the testing.
- 2) A part of the distinctness, uniformity and stability testing of some vegetable species are disease resistance tests, which are not performed by the Institute. The costs related to these tests are to be reimbursed by the applicant directly to the provider of such tests. Annual costs of distinctness, uniformity and stability testing performed at the applicant are 50% of the annual costs of performance of the distinctness, uniformity and stability testing mentioned in b) (see above). Annual costs of verification of the identity of variety are - 50% of the annual costs of performance of the distinctness, uniformity and stability testing mentioned in b) (see above). The use of the results of distinctness, uniformity and stability testing from member states of UPOV is subject to a fee equivalent to 320 EUR according to the rates of the Czech National Bank by the date of issue of the invoice. The costs of distinctness, uniformity and stability testing performed for foreign authorities based on a request are laid down in contracts.
