“Land Market” Ukraine

Positive:

- Law, land became money
- Possible low rate credits for purchasing
- Foreign investors
- Additional companies and working places

Negative:

- Social unrest (almost all farmers against free market)
- Corruption on level of all government structures
- Foreign investors with low charge credits
- No limits for foreign investors
- Market of equipment are stopped, no purchases at all, farmers waiting for market
- No government support for farming, 4 billions UAH will spend on “land market”
- Small and medium size farms will gone
- Growth in the percentage of unemployed on the background of farm closures.
